

When Kevin was getting visitation time in the beginning, when Madeline was younger, he was leaving Madeline with this lady known as Liberty Johnson.

Kevin kept this babysitter he paid \$5.00 an hour to watch the child during his visitation time, a secret from me for about a year. Later when I discovered her name from Kevin. I called and asked her some questions. She told me:

Liberty's step father was the pastor of a church in the area, and her mother, him and her all moved recently to the Peru area from California.

She stated she was 30, had no job, no school, no friends and no life except for living with her parents, although she admired people who had lives.

I asked How Kevin Met her, as a babysitting source.

Liberty told me that her step father, had taken it upon himself to go out and advertise a child care service in the family home without liberty's knowledge. When they started receiving calls about such, he forced liberty to talk on the phone and say she would babysit, she stated she thought he thought it would be good for her since she was anti-social. She stated she did finger pays with Madeline. Madeline also started showing sexual abuse signs around this time. I asked if Kevin had met with her, and she stated that Kevin, and his mom had. She stated their facility was unlicensed, and them talking with Kevin and Mary only lasted a few seconds before they were entrusting Madeline in their care, for their visitation time.

This is part of why I don't feel they have Madeline best interest. They were so careless to firstly take her from me so they can see her, then leave her with a totally inappropriate babysitting source that they didn't even know and was faulty advertised. They did no asking questions or researching to find out more, which I did form phone call and I could tell the deal was sketchy and would not trust my new born little infant girl with these shady people. I can't believe they trusted them, that is risky. They just moved here from California. And were complete strangers, not friend of family or anything like that.

Miss Eickmeier,

I have pretty much told you my entire life story by this point. I have nothing further to add. It is obvious that you don't trust me, which is well within your rights, but as such, nothing I can say would incline you to trust me with your daughter. That is also within your rights.

I watched Madeline for two months last summer. She was lovingly and competently cared for. I have no reason to reproach myself for anything in her time with me, and no reason I should be reproached by you months after the fact.

I would prefer not to be contacted by you again, and wish you luck in finding a childcare provider you trust more than myself.
